DSA-Assignment solving algorithm:

//Java-Pseudocode

```
void solveAssingment(){
    Assignment assignment = new Assignment(downloadAssignment());

    for(exercises e: assignment){

        try{
            e.solve
        }catch(Exception x){

            e.google(x);
            e.searchStackOverflow(x);

        }finally{
            if(e.isSolved == true){
                break;
            }else{
                e.doLater();
            }
        }

    }

    if(assignment.isFinished == true){
        uploadToILIAS();
    }else{
        finshTasks(assignment.getUnsolvedTasks);

    }

    sleep(getTimeUntilTutorium());
    attendTutorium();

}
```
